Oil Field Water Supply Well Permit

This **Oil Field Water Supply Well Permit** requires a **\$200 fee** to be paid to the Northwest Local Environmental Protection Group (NWLEPG) office and this form shall be completed **prior** to construction of water well. The fee may be paid by either the operator licensed by the Kansas Corporation Commission (KCC) or the water well contractor licensed by the Kansas Department of Health and Environment (KDHE). **This permit and fee are valid for six (6) months from the permit date entered below.** As required by KDHE regulations in Article 30 (K.A.R. 28-30-7(e)), the KCC licensed operator is responsible for plugging this water well within 30 calendar days after termination of oil or gas drilling operations, or for conveying responsibility to the landowner in lieu of abandoning and plugging the water well. The transfer must be made through a legal document approved by KDHE and submitted to the Geology & Well Technology Unit at 1000 SW Jackson, Suite 420, Topeka, KS 66612-1367.

Construction of new water wells must meet minimum separation distances from pollution sources as required in the applicable county environmental/sanitary code and/or Article 30 (K.A.R. 28-30-8). The county code may be more stringent than state regulations. Please refer to the applicable county environmental/sanitary code. Copies are available from the NWLEPG office and online at the link <http://www.kdheks.gov/nps/lepp/CountyCodes.html>.

I understand and agree that the issuance of this permit to develop a non-public water supply shall not be construed or interpreted as imposing or interfering with the laws and regulations of the Kansas Department of Agriculture's Division of Water Resources relating to the authority of the Chief Engineer. Neither is there any warranty implied or inferred that this water well will function properly.

The **KCC Licensed Operator is responsible** for ensuring this Oil Field Water Supply Well is constructed by a Water Well Contractor licensed in Kansas in accordance with regulations in Article 30, as authorized by the *Kansas Groundwater Exploration and Protection Act* (Article 12 in K.S.A. 82a-1201, et seq.).
